## **AST 195 PROJECT COVER SHEET**

### **REPLICATING THE VIEW THROUGH GALILEO'S TELESCOPE**

Turn in:

- Answers to the following questions in short typed paragraphs:
  - What changes did you observe when you used the aperture masks on the ground object?
  - What changes did you observe when you used the aperture masks on the moon?
  - The aperture masks give you an idea of what Galileo saw with his telescopes. Discuss overall how your telescope compares to Galileo's.
- Your six photos (make sure each photo is identified). Make sure your name is on your work.
