7:00p.m. December 10, 2003

Jefferson Community College

Southwest Campus

Quinlan Seminar Hall (Social Sciences Building 104)

This lecture features original research of a scientific, technical, and historical nature presented in a manner accessible to interested members of the general public. All persons with interest in automobiles, in applications of math and physics, in engine performance and racing, and in classic cars and the history and development of the automobile are especially invited to attend.

JCC's Southwest Campus is located off Stonestreet Road between the Gene Snyder Freeway and Dixie Highway. For more information call **213-7285**.

Part of the **Southwest Campus Speakers Series**.
